FEDERAL CAPABILITY STATEMENT · FEDERAL SYSTEMS ENGINEERING & TEAMING

Built to hand off. Staffed to stay.

Digital Charter engineers secure systems for federal agencies and partners with the contractors who serve them. Platforms your teams can run themselves, delivered by people who stay.

Core Capabilities: Three Fixed-Price Outcome Packages

GSA SIN 54151S · 518210C · 541611

01
DevSecOps & ATO Acceleration

A governed platform that produces compliance evidence as teams ship.

- Pipeline templates across 10+ technology stacks
- SAST, DAST, IAST, and SCA on every build
- Automated SBOM and Section 508 testing
- GitOps promotion and RMF artifact generation

PROOF: NRC · 90% FASTER ATO

02
Cloud Migration & Modernization

A phased path from legacy infrastructure to sustainable cloud operations.

- Phased migration with parallel systems
- Infrastructure as code (Terraform)
- SaaS transition and decommissioning on AWS GovCloud and Azure Government
- Power Platform modernization with ALM governance

PROOF: FDA · 400TB AT 99% UPTIME

03
Mission Automation

Rules-based work moved to software, with people making the calls.

- Process discovery and ROI analysis
- Automation design and platform migration
- Integration with SAM, FAPIIS, and agency systems
- Pilot, rollout, training, and audit-ready logging

PROOF: U.S. ARMY · $29.3M SAVINGS

Past Performance

SELECTED FEDERAL OUTCOMES

U.S. ARMY · DORA — AWS GOVCLOUD · RPA

Contractor responsibility automation

Digital Charter designed the AWS GovCloud infrastructure for DORA's 2019 pilot, helped develop the automation, and continues to maintain the infrastructure today.

$29.3M annual program savings
2 hr → 5 min per vendor check
8,000+ users, Army, Navy, Air Force

FDA · FEEDS — AWS · RELATIVITYONE

Enterprise eDiscovery cloud migration

Phased migration of FDA's eDiscovery system to cloud while litigation, FOIA, and regulatory work continued uninterrupted.

400TB migrated
99% uptime
30% operational cost reduction

NRC · ALM & DEVSECOPS — AZURE · ATLASSIAN · ADO

Agency-wide standardized pipeline platform

CI/CD, infrastructure as code, compliance as code, SBOM, and automated security and 508 testing across DEV, UAT, and PROD.

100+ projects onboarded
90% faster ATO
6 mo full rollout

CPARS Exceptional in Quality, Schedule, and Management (base period)

NRC · ARIES (PRIME) — POWER PLATFORM · DATAVERSE

Enterprise case management platform

Consolidated three legacy systems into ARIES, integrated NRC's FAIMIS financial system, and delivered Power BI reporting, guides, and recorded training so NRC staff sustain the platform.

3 → 1 legacy systems
2,000+ users, 4 offices
Dec 2024 live in production

Built to hand off.

Runbooks, administrator and user guides, and recorded training are contract deliverables, not extras. At NRC, agency staff now extend ARIES themselves.

Staffed to stay.

The same team has stayed on our longest-running federal program since 2021, through two contract vehicle changes. The people you award are the people you keep.
